About me

I am a recently graduated economist eager to enlarge my knowledge about applied economics methods, especially, focusing on labor and development. I care about culture, education, and gender, and I desire to work to improve robustness in the study about these subjects.

Education

- Apr 2019 - Dec 2023 **Bachelor's degree in Economics - University of Buenos Aires**
Average grade: 8.79/10
Thesis: "Ethnic discrimination in the labor market: the case of Colombia's rural sector"
Strong formation in mathematics and statistics
- Apr 2018 - Dec 2020 **Bachelor's degree in Social Communication - University of Buenos Aires**
Interrupted studies
Focused on anthropological and sociological theories
Strong formation in writing abilities

Work experience

- Jun 2023 - now **Research Intern - Instituto Interdisciplinario de Economía Política (IIEP)**
Assistant at the project: "Occupational and income mobility in macroeconomically unstable contexts: Argentina in a Latin American perspective" directed by Luis A. Beccaria and Danilo R. Trupkin, helping draft papers and search for accurate macroeconomic data.
Conferences about labor economics and applied economics methods.
- Mar 2023 - now **Teaching Assistant of "Economic Growth" - University of Buenos Aires**
Professor Danilo R. Trupkin
Teacher of most practical classes. Exams building and correction, focusing on advanced mathematics.
- Jan 2022 - Jan 2023 **Business Analysis Trainee - Kimberly Clark**
Macroeconomic analysis and reports. Product competitiveness analysis.

Volunteering

- Jan 2024 - now **Economic advisor - Municipality of General La Madrid**
In the current context of serious economic problems and uncertainty, I help analyze changes in local taxes and organizational structure.
